DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.
2. This application is in condition for allowance except for the following formal matters:

Drawings

3. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because the drawings are missing. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

Claim Objections

4. The claims are objected to because they include reference characters which are not enclosed within parentheses. Reference characters corresponding to elements recited in the detailed description of the drawings and used in conjunction with the recitation of the same element or group of elements in the claims should be enclosed within parentheses so as to avoid confusion with other numbers or characters which may appear in the claims. See MPEP § 608.01(m).

Allowable Subject Matter

5. Claims 1-6 would be allowable if rewritten or amended to overcome the objection set forth in this Office action.

6. The following is a statement of reasons for the indication of allowable subject matter: the applicant teaches a mini card adapter having a land section formed in protruding manner on a top surface of a reference wall, wherein the land section is formed within a zone that corresponds to an embossed region of a standard card and at least a portion thereof extends toward a card pocket to form an eaves wall. These limitations in conjunction with other limitations in the claims were not shown by, would not have been over, nor would have fairly suggested by the prior art of record.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 25 USPQ 74, 453 O.G. 213, (Comm'r Pat. 1935).

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent No. 5,677,524 and 6,065,681.
